

QATAR GIFTS MAGAZINE 2024

A wide collection of creative, innovative, and genuinely sustainable gifts and merchandise

CHANGE IS IN WHAT WE DO.

Sustainability is our priority, corporate vision and future direction. We are committed to moving the goalpost on what sustainability is in our industry, and putting an end to harmful greenwashing practices or false claims. Sustainability requires us to change what we choose, question why we do, and innovate how we bring product innovations for a better tomorrow.

OUR *SUSTAINABILITY* APPROACH

PRODUCT TRANSPARENCY

Ensuring genuine product sustainability by using AWARE blockchain tracker technology with GRS certification to monitor and validate the genuineness and impact of recycled fabrics used in our products.

OCEAN HEALTH

Supporting plastic collection at scale through our partnership with Ocean Bottle - each reusable Ocean Bottle supports collection of 1000 ocean-bound plastic bottles closing the circle.

CIRCULAR SOLUTIONS

Some of our products are created from waste materials, which are fully recyclable too to make new materials again and again, creating a closed loop circular solution.

SAFE WATER & SANITATION

By 2025, about 50% of world population will experience 'water stress'. We have provided 3% of sales from CHANGE Collection to Water.org to help them bring access to safe water and sanitation to millions around the world.

OUR SUSTAINABILITY IMPACT HIGHLIGHTS

ACCUMULATED IMPACT DATA UNTIL MARCH 31, 2023

323 MILLION LITERS OF WATER SAVED

Since we launched our CHANGE Collection, we have saved 323 million litres of water from use in irrigation in convention cotton.

851,634 PLASTIC BOTTLES REPURPOSED

Instead of disposing plastic bottle waste, we collect and reuse it to create new, stylish, recycled products such as bags and polo which are part of our CHANGE Collection.

13,308 PEOPLE PROVIDED WITH LIFETIME ACCESS TO SAFE WATER

Through our partnership with Water.org, we donate 3% of each sale from our CHANGE Collection to help water-stressed communities get lifetime access to safe water & sanitation.

ENABLING CHANGE AT LARGE ORGANIZATIONS

Enabling 100s of our clients with sustainability efforts and stakeholder education on genuine supply chain sustainability

16,192,000 PLASTIC BOTTLES COLLECTED

Through a collaborative effort with our stakeholders and partners, we have prevented 16.1 million plastic bottles or roughly around 184,600 kgs of plastic from entering the ocean.

MADE FROM WASTE, TO END WASTE.

We believe that Circular Design can save the world.

Circular Design is a workable solution at a time when the world desperately needs solutions. We create products made with recycled materials, designed to last and fully recyclable. We work to a simple yet immensely challenging rule of 100-10-100. Any product created can only be justified if it's trying to or helping to achieve 100% recycled content, designed for at least 10 years use and then 100% recyclable at the end of its useful life.

1.  Make from recycled materials.
2.  Design to last.
3.  Ensure 100% recyclable.

TRANSPARENCY, TRACEABILITY, AND GENUINE SUSTAINABLE IMPACT

We believe true sustainability can only be achieved when there is transparency and traceability. Our IMPACT and CHANGE collections aim to end greenwashing and lead our industry in a new direction.

BIO BOTTLES MADE IN THE NETHERLANDS

Tacx

BIO BOTTLES MADE IN THE NETHERLANDS

Tacx Are you looking for a bottle fully made of biodegradable materials? Then the Bio-Bottle of Tacx is a great choice. It stands out because the plastic of the bottle is biodegradable. Adding a small amount of bio-material changes the molecular structure so the material finally breaks up in biogas and biomass. This feeds the soil and it's completely absorbed by nature. The process of disintegration starts when the bottle ends up at a microbiological environment (compost heap, waste disposal).

UV protection fabrics are rated between UPF 25-39. Ultraviolet protection factor(UPF) measures blockage of UV-A and UV-B rays. A UPF rating of 25-39 means that our fabric allows 1/25th to 1/39th (2.56- 4%) of UV radiation that falls on the surface of the fabric to pass through it. Thus, 96-97.4% of UV rays are not allowed to reach your skin thereby protecting the skin from sunburn and long term skin damage.

SANTHOME

SECURITY FOR YOU

How the card holder protects?

The aluminium Cardprotector protects your most important plastic cards not only against bending and breaking, but also against malicious parties reading your RFID and NFC cards. RFID (Radio Frequency Identification) cards contain a chip and an antenna for wireless communication. Examples of RFID cards include the Travel card, ID cards, the latest generation of credit cards and bank cards, as well as various access passes.

Using the Cardprotector

The Cardprotector can hold a maximum of 7 cards. If only embossed cards are used, the capacity is 5 cards. Position the cards you use the most at the back or front and they will slide out sufficiently to be used. Slide out the cards with ONE movement of the slider on the side. The radio signal, although still greatly reduced, will now be sufficient for contact over a short distance. This means that you can use your RFID-NFC cards easily and securely. After use, slide your cards back into the Cardholder by pressing down on them lightly.
